#### POLICE DEPARTMENT

CITY OF NEW YORK

OFFICE OF THE POLICE COMMISSIONER

February 10, 1927.

Hon. James J. Walker, Mayor of the City of New York, City Hall, New York.

Sir:

Pursuant to the provision of the Charter of the City of New York, I hereby submit to you the Annual Report of the Police Department covering the year of 1926.

The text of this report is confined to calling specifically to your attention as the Chief Magistrate of the City, the material changes that have been made during the first year of my administration of this Department in its policies and organization and also a brief reference to other matters that I deem of sufficient importance.

It would serve no useful purpose to devote any part of the text to portraying the conditions that I found upon my induction into office through appointment by you on January 1, 1926. It is a striking tribute to the members of the Uniformed Force and the Detective Division, in view of the conditions then prevailing, to say that the failure of the department to function efficiently could not be attributed to the members of these two divisions.

My first duty as I saw it was to bend every effort and so far as possible use every member of the force to combat serious crime. The following changes were made for that purpose:

(1) THE ABOLITION OF THE SPECIAL SERVICE DIVISION with which Division there was lodged during the previous administration, the exclusive power of the enforcement of public moral laws including Gambling and the National Prohibition Amendment.

- (2) THE ABOLITION OF OTHER SPECIAL DETAILS which were taking from the important duty of Patrol, numerous able bodied men.
- (3) THE DISCONTINUANCE AND ELIMINATION OF SUCH PRACTICES AND AFFAIRS AS WERE USING UP MAN POWER IN WORK OF A NON-POLICE CHARACTER AND WERE DETRIMENTAL TO THE PROPER CONDUCT OF THE POLICE DEPARTMENT. Among these were:
  - a. Social Affairs. The curtailing of the large number of social affairs which burdened the police with unnecessary expense and obligated them to individuals through ticket selling campaigns.
  - b. The calling in of all "P.D." signs for motor cars and the withdrawal of all so-called "personal" and "courtesy cards" giving the holders privileges that interfered with the proper enforcement of traffic and other regulations.
  - c. The abolition of "Honorary" and "Special Deputy Police Com-
  - d. The elimination of the Police Parade.

#### THE ABOLITION OF THE SPECIAL SERVICE DIVISION

Hundreds of men recruited from the ranks of patrolmen were assigned to this division in plain clothes. They had roving commissions and very little supervision. The nature of their work subjected them to temptations from all sides. The work of this Special Service Division as I have indicated before was primarily to enforce public moral laws including those related to Gambling and the National Prohibition Amendment.

When I abolished this Division I lodged the responsibilty for the enforcement of these laws with the Inspection Districts. This places on the Commanding Officers of the Districts, entire responsibility for what happens within the boundaries of the territories under their jurisdiction.

It eliminates one of the most vicious evils of the old Special Service Division which prevented Inspectors and other Commanding Officers as well as members of the Uniformed Force and the Detective Division from entering suspected places wherein inspection was often vitally necessary in the performance of important police work not at all related to the duties of the so-called Special Service Division,

#### SOCIAL AFFAIRS AND POLICE PARADE

We have found that the rank and file of the Police Department have been made very happy by the abolition of the numerous social affairs that burdened the men with unnecessary expense and required them to go out and place themselves under obligations to civilians to whom they sold tickets.

The corpus of the Police Relief Fund is not self-sustaining and it may, therefore, be necessary to hold police games during the year 1927. If this is done, the obnoxious practices heretofore indulged in will not be a part of the campaign. Later in this text under the caption of "Finance and Funds" the subject of needs of additional funds for the Police Relief Fund is briefly discussed.

The Police parade during later years developed into a social event for all other than the men who were required to drill and parade. So far as the protection of life and property was concerned, it amounted to an annual invitation to the thieves and stick-up men to visit the city and pursue their criminal practices.

THE CALLING IN OF ALL "P.D." SIGNS FOR MOTOR CARS AND THE WITHDRAWAL OF ALL SO-CALLED "PERSONAL" AND "COURTESY CARDS" GIVING THE HOLDERS PRIVILEGES THAT INTERFERED WITH THE PROPER ENFORCEMENT OF TRAFFIC AND OTHER REGULATIONS.

No comment is necessary on this to recall to your mind the need of placing this rule in effect immediately upon taking office. Their issuance and wide distribution bordered closely on the verge of scandal, and the men of the department were literally insulted by the holders of cards. Considering this interference it was surprising that the members of the traffic division were able to function at all.

## THE ABOLITION OF HONORARY AND SPECIAL DEPUTY POLICE COMMISSIONERS.

Without casting any reflections on the good intentions or the public spirit of the gentlemen who held these titles, it is a fair statement that considered as a whole, they were not helpful to the efficiency of the department. For the greater part, the positions were considered by the holders of the titles as "honorary" and empty as to duties.

It is my contention that the city has every reason to expect that the men who are paid to administer the affairs of the Police Department will be capable of performing the duties assigned.

### SURVEY DATED APRIL 29, 1926, SUBMITTED TO THE BOARD OF ESTIMATE.

After effecting the foregoing changes, I then submitted to you, as Chief Magistrate of the City, the report of a survey which was made under my direction of the needs of the Police Department. I kept you acquainted with the details and at its completion, at your suggestion, it was submitted to the members of the Board of Estimate.

The survey asked for additional men and equipment. Both were granted, and it may be said that this fine coöperation received from you and the other members of the body made it possible the early part of the year to place a substantial number of patrolmen on the streets. This, as well as the new motor equipment, has been directly productive of much of the results hereinafter referred to.

#### MATTERS AFFECTING MORALE

(Civil Service Promotions)

Promotion in the Police Department, up to and including the rank of Captain (save in the Detective Division where the Commissioner can regulate the three grades of Detectives) is made after competitive examinations held under the supervision of the Civil Service Commission.

Competition is keen, the men study hard and this method of selection is the fairest yet devised and it is, therefore, to be assumed that those who attain high places on the list are well fitted to be ranking officers.

Individuals had been unfairly discriminated against. So far as it was within my power I have corrected these abuses where I found the men to be of good character and whose record in the Department was satisfactory. I have to the fullest extent tried to observe and live up to the integrity of the merit system in appointments and promotions governed by Civil Service Regulations.

#### IMMEDIATE PROMOTION FOR GOOD ARRESTS

It has long been recognized that the uniformed patrolman is the backbone of the Police Department. Their work is dangerous, difficult, and requires a rare combination of physical and mental attainments.

During the year 1926, due to labor disputes and many other unusual happenings they have been required to give extra hours of service and for weeks at a time have seen very little of their homes. The arrests made by the uniformed men are among the outstanding arrests of the year. We have endeavored to give proper recognition for good police work and adequately reward the men with promotion and assignment.

#### REDUCTION OF RESERVE

The policy of keeping a heavy reserve force in all Station Houses is antiquated and is not adaptable to securing the maximum of assistance from the members of the Reserve Force. The reserve duty required of each policeman precedes or follows a tour of patrol. In some of the small Station Houses the dormitories were so crowded that there was no room for the men to rest and in these instances men on reserve did practically sixteen continuous hours of duty.

The ideal system of reserve would appear to be a permanent Reserve Squad stationed at certain points centrally located in the five boroughs of the city with quick transportation for the men and with equipment capable of coping with riots and other emergencies. As a step in this direction I split the reserve in half so that now the Patrolmen only report for this reserve duty once in every six days and the smaller squads have improved conditions in the Station Houses so that the men can rest in comfort. The greater part of the permanent reserve could be mobilized from the senior men in the department and would be probably an attractive inducement for the men to remain in service for a period of time beyond when they are eligible for retirement.

We have ordered additional motor equipment to provide for quick transportation of the men but are deferring going further on the development of what may be called a "centralized reserve system" until we can find means of assembling the men for the system without taking any material number from street patrol.

#### DETECTIVE DIVISION

The report on the survey made of the conditions within the Department dated April 29, 1926, which was submitted to the members of the Board of Estimate outlining what was needed in the way of men and equipment contained requests for additional First and Second Grade Detectives and high powered motor cars for this division.

The Board of Estimate by granting these requests made it possible to materially strengthen the Detective Division. In fact, at the present time the numerical strength of this branch of the Department is greater

than it has ever been. The additional motor equipment has made it possible for Detective Squads to perform a continuous motor patrol of the territories embraced within the boundaries of their precincts.

The Detective Division is divided into a number of Bureaus and the scope of their activities is given in detail in the exhibits which follow this text.

It would take many pages to give even a brief account of the important cases, which during the year 1926 have been closed with arrests resulting in convictions. I am, however, submitting a schedule of some of the outstanding crimes for the purpose of showing the type of cases which the Detective Division has solved in the past year, as well as the general nature of the groups of criminals responsible for them who have been convicted and sentenced to prison.

All of the Bureaus of the Detective Division and the men attached to them have done splendid work. The figures and other data submitted in the exhibits, schedules and tables constituting a part of this report, which is summarized and referred to in the latter part of this text, is proof of this statement and at the same time furnishes the best kind of a testimonial to the members of the Detective Division and the Uniformed Force for the services they rendered during the year 1926.

#### RESULTS

The best test for determining the standard of morale and efficiency of members of the Uniformed Force and the Detective Division as well as the Commanding Officers of the Department is the results. The exhibits, schedules and tables following the text give this information in adequate detail. However, a brief reference at this point appears to be appropriate.

The first public statement that I made after I assumed this office was that the people of the city were entitled to adequate protection of their lives and property. The class of crime most feared by society which affects both is what is classified as "Assault and Robbery." The table given below shows the number of cases of Assault and Robbery reported, divided into four periods for the years 1925 and 1926:

TABLE No. 1— Assault and Robbery Cases Reported

|                |      |      | Per         | Cent —       |
|----------------|------|------|-------------|--------------|
| Cases Reported | 1926 | 1925 | Increase    | Decrease     |
| First Quarter  | 424  | 364  | 60 or 16.5% |              |
| Second Quarter |      | 328  |             | 44 or 13.4%  |
| Third Quarter  | 208  | 363  |             | 155 or 42.7% |
| Last Quarter   | 257  | 428  |             | 171 or 40.0% |
|                | 1173 | 1483 |             | 310 or 20.9% |

This affords an opportunity for study and comparison. It will be noted that during the last quarter of 1925 there were reported 428 cases and that during the first quarter of 1926 there were 424 cases. It is natural that conditions prevailing in the last part of 1925 should continue through the early part of 1926. It will be further noted that starting with the second quarter of 1926 there has been a decrease in the number of cases reported as follows:

Second Quarter - - Decrease 44 cases or 13.4%

Third Quarter - - - Decrease 155 cases or 42.7%

Fourth Quarter - - Decrease 171 cases or 40.0%

The percentage of assault and robbery cases closed with arrests during the year 1926 was 49.1%. During the year 1925, the percentage closed with arrests was 39.4%. This percentage of 49.1% will be increased by adding the arrests already made in 1927 and by the closing out of additional cases that the detectives are working on at the present time.

The number of assault and robbery cases, without additional information, while presenting an accurate picture does not tell the complete story. I am therefore submitting some additional data in two tables covering the last three months of 1925 and the last three months of 1926. Table No. 2 shows assault and robbery cases in which the estimated loss amounted to \$1,000 or more. It will be noted that there are only 38 cases involving \$1,000 or more during the last quarter of 1926 as compared with 100 cases during the last quarter of 1925. This is equal to a decrease of 62%.

#### TABLE No. 2-

Assault and Robbery Cases Reported in Which the Estimated Loss Amounted to \$1,000 or More—Period Last Quarter 1925 and 1926

#### (Summary)

|   | 1926 | 1925 |
|---|------|------|
| Cases in which the estimated loss amounted to more than \$1,000 |      |      |
| during the last quarter   | 38   | 100  |
| Cases in which arrests were made.                               | 16   | 32   |
| Percent closed with arrest                                      | 42.1 | 32   |

#### TABLE No. 3-

# Assault and Robbery Cases in Which the Estimated Loss Amounted to \$10,000 or More

#### Assault and Robbery Cases Reported

#### (Summary)

|   | 1926 | 1925 |
|---|------|------|
| Cases in which the estimated loss amounted to more than |      |      |
| \$10,000 during the last quarter                        | 6    | 15   |
| Cases in which arrests were made                        | 4    | 7    |
| Percent closed with arrest                              | 66 % | 46 % |

In the assault and robbery cases involving \$10,000 or more, six cases are reported for the last quarter of 1926 as compared with 15 for the last quarter of 1925, a decrease of nine cases, or 60%.

#### The above cases in detail are:

<sup>\*</sup> Arrests made.

#### CONVICTIONS

The figures on the subject of convictions will show the rate of convictions to be considerably higher than for the preceding year. It is impossible, however, because of the early date of this report, to determine the exact percentage, as many of the cases are pending and their disposition will not be known for some few months.

The improvement in the percentage of convictions is both tribute to quality of arrests made by the police and also the splendid work and coöperation of the District Attorneys and courts having jurisdiction of the criminal cases.

#### BURGLARY AND GRAND LARCENY CASES REPORTED

Table No. 4 shows the summary of burglary and grand larceny cases (exclusive of automobile thefts) reported for the years 1925 and 1926. The burglary cases reported in 1926 numbered 3,371, and in 1925, 4,103, a decrease in 1926 of 732 cases, or about 18% from the previous year. The Department files show this to be the lowest figure of burglaries reported in 10 years.

The table also shows a summary of grand larceny complaints for the years 1926 and 1925.

The number reported for the year 1926 was 8,691 The number reported for the year 1925 was 10,225

Decrease (equal to 15% 1,534

<sup>†</sup> Arrests made, and property partly or fully recovered.

Property partly or fully recovered.

#### TABLE No. 5-

Grand larcenies involving automobiles are reported separately in table below:

| Delow:  | 1926       | 1925      |
|---|------------|-----------|
| Number of automobiles reported stolen         | 12,099     | 11,895    |
| Number of cars recovered                      | 9,729      | 8,659     |
| Percent of cars recovered                     | 80.4       | 72.8      |
| Grand Larceny auto arrests                    | 1,669      | 1,669     |
| NOTE: The recovery figure for 1926 was the hi | ghest ever | obtained. |

There has been an increase of 204 in the number of stolen cars, or 1.7%. There has, however, been a material increase in the number of cars recovered. The summary of figures in the table needs no explanation.

#### BURGLARY

It was originally my idea to submit an estimate of the amount of property losses and the recoveries in the text of this report. I find, however, that the department has not complete information on the subject. The reason for this is that in most robbery, larceny and burglary cases, the loss has not been determined at the time the detectives arrive on the scene and in the greater number of cases, the loss is not finally determined (where the property is insured) until the insurance loss is settled and collected.

In this connection, as you probably know, there has been recently published in the newspapers statements from officers of casualty and marine companies that are in the business of underwriting burglary and theft insurance. These statements are to the effect that their losses during the year 1926, as compared with the year 1925, have been reduced anywhere from 25 to 60%. It was also my intention to request the companies to submit some figures on this subject, but they are not available for this report.

"Jewelry and uncut diamonds" involved in assault and robbery cases, burglaries and larcenies, have always constituted some of the most important losses. One of the marine insurance underwriters has sent to this department within the last few days a statement of figures on jewelry losses which was taken from a pamphlet known as the "Jewelers' Circular," which, I understand, is a paper representing jewelry interests throughout the country. The comparative losses for the last six months of 1925 and 1926 are given below:

| June 1, 1925, to December 16, 1925—                    | ********                                |
|--|---|
| "Inside Losses" Window Smashing)                       | \$674,500<br>129,000                    |
| TOTAL  | \$803,500                               |
| July 29, 1926, to January 12, 1927—                    |   |
| "Inside Losses"  | \$25,300                                |
| TOTAL  | \$57,300                                |
| This is a reduction of \$746,200, or approximately 93% | , |

#### HOMICIDES

The number of persons reported murdered during 1926 is 289, as compared with 308 for 1925. This is a decrease of more than 6% from the year 1925.

It is important, in rating the efficiency of police in murder or manslaughter cases, to study the classification of cases. Murder or manslaughter cases arising from altercations, gangster fueds and gambling disputes have very little to do with police efficiency.

The police experience with these cases is that except where the police officers are on the immediate scene of the crime at the time of its happening, much of the hard work done in the cases is not fruitful in the way of obtaining convictions, even though the police know for a certainty that they have apprehended and have in their custody the actual perpetrators of the crime.

There are two major reasons why this statement is true:

First, it is extremely difficult to force gamblers, gangsters and others of the underworld to testify against each other. The unwritten code of this element is to "get even" in their own way with those of their own ilk who have attacked them, and they all look upon the police as the "common foe."

Second, most of the gangsters and gamblers who become involved in crimes of violence have criminal records and therefore their evidence in court is easily discredited.

Individual arrests for homicide, assault, shooting and stabbing: 1926, 306; 1925, 338.

# COMMERCIALIZED VICE, GAMBLING—SUPERVISION COMMERCIALIZED VICE, GAMBLING

There were outstanding on January 1, 1926, twenty or more Supreme Court orders restraining the police from entering certain establishments wherein it was suspected that professional gamblers were operating. No difficulty was experienced in having these orders vacated after the Justices of the Supreme Court had been placed in possession of complete information concerning these places and the individuals conducting the gambling.

I believe it will be conceded by every one who is acquainted with conditions, that the city was never as rid of commercialized vice and professional gambling as it has been during the past year.

#### SUPERVISION

The plan of fixing the responsibility on the Inspectors in charge of the Inspection Districts is the best possible method of running down any trail of corruption. The Chief Inspector of the Department has his own supervising force for this purpose and each borough chief and Inspector has his own plain clothes men. As Police Commissioner, I have established a "confidential squad" which handles all complaints received by the Police Commissioner against members of the uniformed force and detective division, and it is well recognized that I have, through this squad, left no stone unturned to run down any corruption within the department of which we have received even the slightest hint. At the same time, the utmost care is exercised to see that no police officer who has made an honest mistake in the performance of what he regards to be his duty is unfairly penalized.

#### FINANCIAL STATEMENTS

It was pointed out in the survey dated April 29, 1926, submitted to the members of the Board of Estimate and Apportionment that it was our policy to ask only for such appropriation of moneys for additional men, equipment, and buildings which were absolutely needed and that would directly assist in increasing the efficiency of the patrol and detective forces. Full details of the Police Department budget accompany this report.

The preceding administration had prepared a program calling for the erection of a number of additional precinct station-houses. Completion of the program would have involved an expenditure of money in the neighborhood of \$8,875,000. I abandoned this program to see if we could substitute a more economical and serviceable one. For the purpose of

INDIAN HEAD LODGE, MAIN BUILDING OF THE POLICE RECREATION CENTER

carrying out this idea, early in the year 1927, I asked for the issuance of \$1,000,000 corporate stock to be used for the purpose of purchasing land wherever it is necessary and to defray the cost of the erection of additional precinct houses. There are sections of the Bronx, Kings, Queens and Richmond that are badly in need of additional precinct station-houses, as the territory embraced within the boundaries of the precinct is entirely too great to procure the maximum amount of efficient patrol.

I am of the opinion that precinct station-houses should be plain, simple structures, sufficient in size to transact necessary police business, with a garage adequate to take care of department automobiles. By adhering to this program, we expect to be able to hold the cost of each precinct station-house down to an average of \$75,000 to \$100,000 each.

# POLICE RELIEF FUND, INC., POLICE RECREATION CAMP, INC., AND OTHER FUNDS

It required considerable investigation to locate the assets, books and records of the sixty-one funds that were started at various times in connection with the activities of the Police Department during the preceding administration. So far as the records were available and their deplorable condition would permit, an audit was made of these funds. It is impossible to state with any degree of certainty whether all of the funds and assets were accounted for. Large numbers of tickets were missing and other donations were hard to verify.

The two most important funds are

- (a) POLICE RELIEF FUND, INC.
- (b) POLICE RECREATION CAMP, INC.

The records of the Police Relief Fund, Inc., were an exception to the records of the other funds. Since this Fund was incorporated, the records were kept in good condition, and a thorough audit was possible.

This fund was incorporated during the previous administration, and honorary and special deputy police commissioners constituted the majority of its directors. To place the responsibility where it should be, through an amendment passed at the last session of the legislature, control of this fund was transferred to the duly elected city officials and the representatives of the various police organizations.

#### POLICE RECREATION CAMP, INC.

This camp is located at Tannersville, New York. When finally completed, it will have cost over \$1,039,032. There had been expended on it up to January 1, 1926, the sum of \$726,973 and, in addition, the unpaid obligations at that time, ran close to \$300,000.

The representatives of the various police organizations never approved of either the location of the camp or the expenditure of any such sum of money for its erection. The question of what to do with it had to be decided. If it was abandoned after the outlay of over \$726,973, it would have meant the loss of practically that entire sum. It was for that reason that the directors of the camp corporation decided to complete the camp, pay the outstanding obligations, and operate it long enough to determine whether it would be suitable for the members of the department.

The representatives of the Patrolmen's Benevolent Association and the other police organizations made every effort to popularize the camp, and, considering the conditions, succeeded very well. They had a very late start as the buildings were not ready for occupancy until mid-summer. It was, therefore, impossible to put it on a paying basis, and the operating deficit for the year 1926 was \$16,686.75. The final disposition of the matter rests entirely with the representatives of the police organizations. They alone will determine as to whether it shall be continued, sold, or otherwise disposed of.

#### LEGISLATION

The so-called Baumes Laws passed at the 1926 session of the Legislature have recently been the subject of much discussion. The difference of opinion appears to be centered about the wisdom and the desirability of only one of these laws, namely, the one which takes discretionary power from the Judges and makes it mandatory that fourth felonly offenders be sentenced to life imprisonment.

The Police Department's experience, since this law and the other socalled Baumes Laws took effect, leads us to the positive conclusion that up to date they have had a very deterrent effect on individuals pursuing a criminal course. Our experience is based on actual contact with criminals, and from the information disclosed to the police, it is evident that criminals have a genuine fear of these laws.

Furthermore, from the statistics available at this department, I have reached the conclusion that those who advocate a change at this time cannot sustain their position for an immediate modification of this particular law, as it is quite too early to say that it has had a fair trial.

In the public discussion of this one amendment, other important legislation (particularly that dealing with the subject of bail) which was passed at the last session of the Legislature has been lost sight of. With

regard to the so-called new bail laws, this department can submit figures to show that it has had a very decided effect in restricting the operations of the habitual criminal.

The following figures clearly prove this statement:

Between April 16, 1926 (when the new bail law took effect) and December 31, 1926, six individuals committed crime while out on bail. For the same period (approximately eight months) prior to the time the law took effect, sixty-four individuals charged with crime were arrested while out on bail. The law in question is known as Chapter 419 of the Laws of New York—1926.

#### TRAFFIC

Early in July, 1926, I established a "Traffic Board" for the purpose of making a thorough study of existing conditions and to make suggestions for improvement. This Board invited suggestions for the betterment of the movement of motor vehicles on the streets of the city from all sources. The Board was instructed by me to keep records of street accidents, to study their causes and make recommendations for their prevention.

The organization of the Traffic Board is as follows:

Philip D. Hoyt, Secretary to the Police Commissioner, Chairman.

William J. Lahey, Chief Inspector.

William A. Coleman, Deputy Chief Inspector in charge of Traffic.

Arthur J. Dodd, Inspector, First District Traffic.

August Kuhne, Inspector, Second District Traffic.

As a result of several months' study by the Traffic Board, a thorough revision of the traffic regulations of the Police Department was recommended. The revised regulations were approved by me to become effective January 1, 1927.

A comprehensive program for the extension of the traffic control light signal system throughout the city is the result of another exhaustive survey by the traffic officials. Part of this program is nearing completion, and an additional appropriation to provide mechanical control at more than 1,400 intersections has been recommended to the Board of Estimate. If this program is approved, traffic will be controlled automatically at 2,243 intersections in the city. If policemen were provided for all of these crossings, their annual salaries would total \$13,215,000.

In connection with the extension of the traffic light system, I wish to make acknowledgment of the very thorough coöperation accorded by the

Commissioner of Plant and Structures and the members of his Department, under whose jurisdiction and supervision all of the traffic lights are installed.

Special regulations to relieve traffic conditions in many localities of the various boroughs are the result of studies of the problems peculiar to these sections. Hearings have been held on many of these matters in order to give all persons interested an opportunity to present their views.

Special studies of accidents throughout the city have resulted in new methods of classification of accident statistics, in order to make them available not only for safety work but also for the traffic officials in connection with the regulation of traffic. Through the coöperation of Dr. William J. O'Shea, Superintendent of Schools, the figures on highway accidents, classified with respect to various factors relating to school children, and compiled monthly, have been made the basis of a safety campaign in the schools.

#### CONCLUSION

When, on January 1st, 1926, I assumed the Office of Police Commissioner, I made a brief statement, outlining my policies, which may be summarized as follows:

- 1. That the efforts of the members of the entire Police Department would be centered upon giving adequate protection to the lives and property of the people of the community.
- 2. That, so far as it is possible to do so, the City would be kept free from commercialized vice, including professional gambling.
- 3. That all members of the Force would be treated fairly, that changes and promotions would be made on merit and that interference with the honest performance of the duties of the members of the department would not be tolerated.
- 4. That I felt confident that the rank and file and the officers of the department would give me the best that was in them in an effort to fulfill these pledges.

If this report indicates to you that the results obtained are satisfactory and shows that I have lived up to promises made, as I believe it does, the entire credit belongs to the members of the Police Force, for they are the ones who have made possible these accomplishments.

Respectfully,

GEORGE V. McLAUGHLIN,
Police Commissioner.

PRECINCTS RE-ESTABLISHED DURING 1926

# LICENSE BUREAU

The Second Deputy Police Commissioner is responsible for the issuance of the following licenses:

Public Hack Drivers

Pistol Licenses Religious Permits

Also has supervision over investigations made for the License Commissioner in connection with the issuance of the following licenses:

Dance Halls
Theatres
Concert Halls
Amusements
Ticket Agencies

Massage Operators
Massage Institutes
Pool Tables
Auctioneers

Steamship Ticket Agencies

Detective Agencies Pawnbrokers

Candidates for Admission to the Bar

During the year 1926 the following licenses have been issued by this Office:

| Public Hack Drivers                              | 49,000 |
|--|--------|
| Public Hacks                                     | 27,000 |
| Pistol licenses (Carry, 26,719; Premises, 7,049) | 33,768 |
| Religious permits                                | 463    |
| Traffic Warning cards issued                     | 2,880  |

To investigate complaints made by passengers against public hack drivers and to adjudicate on summonses issued to hack drivers by members of the Force, for violations of the hack regulations, it is necessary to conduct trials, which are heard by the Second Deputy Commissioner, and decisions are rendered for or against the driver in accordance with the findings of the investigation.

Hack drivers placed on trial for year 1926\_\_\_\_\_\_\_4,456

#### DISPOSITION OF CASES

| Revoked          | 413   |
|------------------|-------|
| Suspended        | 1,991 |
| Reprimanded      | 1,092 |
| Dismissed        | 421   |
| Investigations   | 287   |
| Failed to answer | 252   |

The Physical Bureau is in charge of a Deputy Chief Surgeon and his duties are to examine applicants for hack drivers' licenses to determine their physical fitness to operate a public hack.

| Applicants examined and found fit             | 27,545 |
|---|--------|
| Applicants examined and rejected.             | 132    |
| Applicants temporarily held for investigation | 261    |

The Investigating Squad have made the following number of investigations on applications for licenses for the License Department, and others:

| Massage Operators                   | 302   |
|-------------------------------------|-------|
| Auctioneers                         | 95    |
| Pool Parlors                        | 1.684 |
| Theatres                            | 257   |
| Amusement licenses                  | 38    |
| Masque Balls                        | 272   |
| Pawnbrokers' licenses               | 4     |
| Massage Institutes                  | 22    |
| Bail Agents                         | 21    |
| Dance Halls                         | 879   |
| Concert licenses                    | 6     |
| Special Patrolmen                   | 196   |
| Runners' licenses                   | 74    |
| Circus licenses                     | 1     |
| Candidates for admission to the bar | 1,636 |
|                                     |       |
| TOTAL                               | 5,517 |

The Hack Squad, consisting of five (5) Patrolmen, are assigned to the duty of enforcing the hack ordinances, and in addition to the great number of summonses they served on hack drivers to appear before the Second Deputy Commissioner, 42 drivers were arraigned before a Magistrate on various complaints, which were disposed of as follows:

| Fines   | \$283.00   |
|---|------------|
| Sentence suspended 10   | )          |
| Discharged1   |            |
| Days in prison 10   | )          |
| Following are the receipts taken in by this Bureau for the yea  | г 1926:    |
| Hack License Bureau\$   | 120,239.00 |
| Hack Drivers' Bureau  |            |
| Pistol License Bureau   |            |
| Total   | 210,631.00 |
| EXPENDITURES  |            |
| Salaries:   |            |
| 1 Deputy Commissioner   |            |
| 1 Inspector   |            |
| 3 Lieutenants   | \$133,837  |
| 41 Patrolmen  |            |
| 4 Civilians   |            |
| Supplies:   |            |
| Hack badges, hack books, dash plates, seals, pyralin, cabinets, |            |
| press machine, etc.   |            |
| Total   | \$153,837  |

It is recommended that the following proposed ordinances be referred to the Legal Bureau, Police Department, to be properly drawn in legal form and referred to the Municipal Assembly:

- a. Licensing of taximeter manufacturers and taximeter repair shops: No person, firm, partnership or corporation shall be permitted to repair, reconstruct, readjust or calibrate any taximeter upon any public hack unless duly licensed by the Police Department of the City of New York to perform such service. License fee to be \$100 per annum.

- d. Designation of hack stands (to be designated by the Police Commissioner instead of by the License Commissioner). When the Municipal Assembly transferred the licensing of public hacks and public hack drivers from the License Department to the Police Department they omitted to include the designation of hack stands by the Police Department instead of by the License Department.
- e. Articles found in public hacks (to be reported immediately to the nearest Police Station instead of waiting for a period of 24 hours).
- f. A "Constant Vision Multiple License Number Reflector," which is a triangular metal box containing three signs and to be placed on the roof of the taxicab, one side of the triangle facing the front and the other two sides in such a position that the point of the triangle points directly to the back of the taxicab, thereby keeping in view the hack license number, which by day can be seen for a great distance, and illuminated at night can be seen at an equal or greater distance.
- g. An "Automatic Signal" device, to be placed on the roof of the hack and operated automatically from the mechanism of the taximeter, that when the flag of the taximeter is in a recording position the sign on top of the hack will show "HIRED" and when the flag of the taximeter is in non-recording position the sign on top of the hack will show "VACANT."

# FINANCIAL STATEMENT

The following schedules show the financial transactions of the Police Department during the Year 1926:

This schedule is a comparative statement of the 1925 and 1926 expenditures from Budgetary appropriations and miscellaneous pension receipts.

## TRAFFIC BOARD

Early in 1926 steps were taken to centralize the activities of several agencies of the Police Department whose functions included matters relating to traffic. These agencies had been operating more or less independently and under no central control. The first step was taken in April, when the headquarters of the Traffic Division was moved from Beach Street to Police Headquarters. This was immediately followed by the establishment as a part of the Traffic Division of an Accident Record Bureau. This Bureau took up many of the functions of the former Safety Bureau which had been discontinued under the previous administration.

The whole field of traffic was temporarily placed under the control of a Traffic Committee, with the Fifth Deputy Police Commissioner as Chairman. After a further survey the functions of this Committee were given over to a Traffic Board established on July 14th, 1926, by order of the Police Commissioner

"to consider all matters relating to traffic; make general and special studies of traffic conditions and methods, and prepare recommendations for their improvement; consider and report on suggestions concerning traffic which may be received from any source; submit to the Police Commissioner such proposed changes in traffic regulations as may seem advisable; keep records of street accidents, study their causes, and recommend measures to promote safety on the streets."

### TRAFFIC CONTROL LIGHT SIGNALS

The extension of the traffic light control system in all parts of the city was one of the first matters to be taken up by the Traffic Board. The value of a mechanical lighting system, operating either automatically or over a wide area from a remote control to move traffic smoothly and safely, had been well established by the experience of New York City and other cities.

The rapidly increasing number of automobiles operating in the city, the steadily mounting population, and the building up of the outlying sections of the city had created conditions requiring immediate remedies. While traffic at many of the important intersections was controlled by police officers, to provide them at all the crossings where conditions warranted their presence would require an increase greater than the present total force, the cost of which would be \$5,000,000 a year.

In the thickly populated sections every crossing had become a danger point. The accident total on many of these streets was heavy and the demands for additional safeguards numerous. Hundreds of letters, petitions and oral requests for

protection at various crossings were received from civic organizations, school officials, and others. From the standpoint, not only of safety to drivers and pedestrians, but also of orderly regulation of traffic, better control at hundreds of intersections was found to be necessary. The cost of control by police officers at all these points would have been prohibitive. Traffic lights, however, could be provided by a comparatively nominal outlay.

Following a survey of conditions, during which all factors affecting the movement of traffic and the safeguarding of the public were considered, a report was made to the Police Commissioner on May 13th, 1926. Counts of vehicular traffic, accident records for the various avenues and streets, and density of population were among the factors that were carefully investigated. The recommendations of the Traffic Board were approved by the Police Commissioner for the extension of the traffic light system on the following streets and avenues:

#### MANHATTAN

Sixth Avenue—37 lights to be placed under elevated railroad structure, and 2 poles between 53d and 59th Streets.

Canal Street—Bowery to Varick Street, 4 light poles.

Tenth and Amsterdam Avenues-34th to 110th Street, 20 light poles.

Broadway—New system, Rector to 86th Street. Extension to 110th Street, 6 light poles.

125th Street-First Avenue to Broadway, 8 light poles.

Bowery—Baxter to 6th Street, and Schiff Parkway (entrance to Williamsburg Bridge), 15 lights to be attached to elevated railroad structure, and 2 poles on Kenmare Street to Lafayette Street.

Park Avenue—45th to 96th Street, 11 additional light poles.

Second Avenue-Houston to 23d Street, 6 light poles.

#### BROOKLYN

Fourth Avenue—Bergen to 60th Street, 16 light poles.

Eastern Parkway—Ralph Avenue to Fulton Street, 5 light poles.

Atlantic Avenue—Hicks Street to Bedford Avenue, 12 light poles.

## QUEENS

Hillside Avenue-Myrtle Avenue to 206th Street, 20 light poles.

#### BRONX

138th Street—Mott Avenue to Southern Boulevard, 6 light poles.

Fordham Road—Southern Boulevard to Jerome Avenue, 8 light poles.

Inter-connecting signal units so as to provide one-man control for each system.

MANHATTAN

Lafavette Street System.

Fourth Avenue-Lower Park Avenue System.

Upper Park Avenue System.

Fifth Avenue System.

Broadway System.

#### BROOKLYN

Bushwick and Bedford Avenue Systems.

Ten additionals lights to be added to various existing systems where the interval is so great as to break continuity.

The program above outlined was approved by the Board of Estimate, who authorized the use of an appropriation previously made for traffic lights for this purpose. Several of the systems above enumerated were nearing completion at the end of the year.

Immediately following the first survey steps were taken to prepare a further program of extending the traffic control light signals. Experience of the traffic officials of the Department had shown that if lights were installed on one of several congested adjoining avenues the congestion and hazards on the adjoining avenues without light control were greatly increased. To avoid the light-controlled streets drivers used streets where there was no traffic signal system, and, unrestrained by any traffic control except at the important intersections where police officers are stationed, sped along without regard to pedestrians or other cars attempting to enter the avenue from cross streets.

It was deemed advisable, therefore, to consider adjoining avenues in congested sections as a zone, attaching equal importance to each street or avenue within the zone. The policy of completing the installation of lights on all avenues within a given section of a zone was considered preferable to installing lights the entire length of one avenue to the exclusion of the other avenues in the zone.

With that policy in mind a second report was submitted to the Police Commissioner recommending the following program:

#### MANHATTAN

#### **70NF 1**

First Avenue—Houston to 23d Street (under "L"), 24 lights. Second Avenue—23d to 125th Street (under "L"), 102 lights. Third Avenue—9th to 125th Street (under "L"), 115 lights. Lexington Avenue—21st to 125th Street, 26 lights. Avenue "A"—54th to 93d Street, 11 lights.

#### ZONE 2

Ninth and Columbus Avenues—14th to 110th Street (under "L"), 96 lights. West End Avenue—59th to 106 Street, 13 lights. Riverside Drive—72d to 120th Street, 14 lights. Amsterdam Avenue—110th to 125th Street, 4 lights.

#### ZONE 3

Broadway-110th to 215th Street, 25 lights.

#### **ZONE 4**

Madison Avenue—64th to 135th Street, 19 lights. Fifth Avenue—57th to 135th Street, 14 lights. Lenox Avenue—110th to 153d Street, 7 lights. Seventh Avenue—110th to 153d Street, 8 lights.

#### BROOKLYN

Lafayette Avenue—Fulton Street to Broadway, 16 lights.

Vanderbilt Avenue—Prospect Place to Pacific Street, 2 lights.

Ocean Avenue—Caton Avenue to Avenue U, 12 lights.

Flatbush Avenue—Maple Street to Glenwood Road, 7 lights.

Eastern Parkway—Prospect Park to Bedford Avenue, 5 lights.

Liberty Avenue—Rockaway Avenue to Forbell Avenue, 14 lights.

Fourth Avenue—67th to 86th Street, 5 lights.

#### BRONX

Jerome Avenue—162d Street to Kingsbridge Road (under "L"), 30 lights.
Southern Boulevard—St. Ann's Avenue to Westchester Avenue, 12 lights;
Westchester Avenue to 182d Street (under "L"), 14 lights.
Boston Road—165th Street to Southern Boulevard, 14 lights.
Prospect Avenue—Boston Road to 149th Street, 7 lights.
Tremont Avenue—Boston Road to Webster Avenue, 14 lights.

NEW ARMORED MOTORCYCLES WITH BULLET - PROOF WINDSHIELDS

## QUEENS

Northern Boulevard—Junction Avenue to Astoria Avenue, 6 lights; Main Street to Auburndale Lane, 9 lights.

101st Avenue-Liberty Avenue to Sutphin Boulevard, 14 lights.

Oucens Plaza, Long Island City-Permanent system under "L."

Under date of December 20th, the Police Commissioner forwarded to the Board of Estimate a request for an appropriation of \$534,000 to complete the program above referred to. This request provides not only for the continuous lighting systems above enumerated but also for a great number of isolated automatic "stop-and-go" lights at intersections all over the city where continuous systems are not necessary. The request is now pending before the Board of Estimate

#### REVISION OF THE TRAFFIC REGULATIONS

Revision of the traffic regulations to meet the conditions due to the increasing congestion in the city has been one of the principal tasks of the Traffic Board. After studies continuing over a period of several months a new set of regulations was promulgated by the Police Commissioner to become effective January 1st, 1927. The revision of the regulations entailed, first, the repeal or amendment of former regulations which were found inadequate to meet present conditions; second, the formulation of new regulations to cover matters not provided for in the old regulations, and, third, the codification of all the police regulations, the ordinances relating to traffic, and important sections of the Motor Vehicle Law so as to provide a comprehensive book of rules for those who drive in New York City.

#### SAFETY MEASURES

A study of the records of the Accident Record Bureau of the Traffic Division suggested various measures to promote safety on the streets. One of these was an arrangement with the Superintentent of Schools to carry on safety work as part of the city's educational program. Separate classifications were made of accidents to children of school age so as to provide for the school officials facts on which specific action could be taken to cut down the great number of fatalities and injuries due to street accidents. For example, the accidents have been classified as to causes, school districts, and hours.

School officials were asked to make a survey of conditions in the various localities and recommend to the Police Commissioner any steps which, in their opinion, would provide additional safeguards. The recommendations embodied in the reports from the school district superintendents have, in nearly every instance, either been carried out or included in plans now under way. The coöperation of school officials throughout the city with the Police Department, not only

with respect to these surveys but also in many other ways, has been of great assistance and has led in great measure to a reduction this year in fatalities, due to highway accidents, among children.

The Traffic Board, in considering various problems throughout the city, has found it necessary to consult the accident records of the localities involved. A study of the accident records so classified has resulted in many recommendations for special traffic regulations or additional equipment in the particular neighborhood affected.

#### Suggestions and Complaints

Numerous suggestions concerning traffic received from civic organizations, other agencies and individuals, and complaints about conditions in various parts of the city, have been investigated during the year by the Traffic Board. On many of these matters hearings were held and personal inspections made by the Traffic Board, and wherever possible the plans suggested were adopted.

A total of 197 special traffic regulations were promulgated by the Police Commissioner during the year on recommendation of the Traffic Board. These included 95 parking restrictions, 89 one-way streets, 10 public parking spaces, 2 restrictions to commercial traffic, and one congested street. Thirteen special regulations were amended.

Eighty-two special regulations were revoked during the year. Among them were restrictions to commercial traffic on 60 streets. This action was taken after investigation showing that restrictions to commercial traffic in large areas throughout the city had interfered greatly with the movement of traffic and the transaction of business, and had thrown upon streets adjoining those restricted an additional burden of heavy traffic. Special regulations on 10 one-way streets, and parking prohibitions on 10 other streets were revoked.

One of the most beneficial of the special regulations was a direct result of the strike on the Interborough Rapid Transit subways in July, 1926. The temporary use of a large fleet of busses during the strike led to a restriction against parking on the principal avenues in Manhattan south of 59th Street during the morning and evening rush hours. This regulation received such general commendation as a temporary measure that on September 9th, 1926, the Police Commissioner made it permanent with slight modifications. The regulation prohibits parking during the hours of 7 A. M. and 10 A. M. and 5 P. M. and 7 P. M. daily, except Sundays and holidays, on the following streets and avenues south of 59th Street:

Park Avenue Fourth Avenue Lafayette Street Madison Avenue Fifth Avenue Sixth Avenue Seventh Avenue Varick Street Broadway

# TRAFFIC DIVISION

The Sixteenth Division (Traffic), controls traffic conditions in all Boroughs of the Greater City and is divided into two Districts.

The First District, Traffic, comprises all territory within the Boroughs of Manhattan and The Bronx, comprising Traffic "A," Traffic "B," and Traffic "C" precincts.

The Second District, Traffic, comprises all territory within the Boroughs of Brooklyn, Queens and Richmond, and includes the Brooklyn, Manhattan, Williamsburgh and Queensborough Bridges, comprising Traffic "D," (and Subdivision 1), Traffic "E" precincts and Bridge precincts 72d and 73d.

The territory covered by the various precincts are fully explained on the following page.

TERRITORY COVERED BY TRAFFIC AND BRIDGE PRECINCTS

TRAFFIC "A"

All territory on Manhattan Island, south of East and West 42d Street.

TRAFFIC "B"

All territory on Manhattan Island, north of and including both sides of East and West 42d Street.

TRAFFIC "C"

All territory in the Borough of The Bronx.

TRAFFIC "D"

All territory in the Boroughs of Brooklyn and Richmond, including Traffic Precinct "D," subdivision 1 (Coney Island).

TRAFFIC "E"

All territory in the Borough of Queens.

72D PRECINCT

Brooklyn and Manhattan Bridges.

73D PRECINCT

Williamsburgh and Queensborough Bridges.

## LOCATION OF TRAFFIC OFFICES AND PRECINCTS

SIXTEENTH DIVISION (TRAFFIC)

Room 206, Police Headquarters, Manhattan.

FIRST DISTRICT (TRAFFIC)

138 West 30th Street, Manhattan.

SECOND DISTRICT (TRAFFIC)

148 Vernon Avenue, Brooklyn.

TRAFFIC "A" PRECINCT

230 West 20th Street, Manhattan.

TRAFFIC "B" PRECINCT

150 West 68th Street, Manhattan.

TRAFFIC "C" PRECINCT

1086 Simpson Street, The Bronx.

TRAFFIC "D" PRECINCT

148 Vernon Avenue, Brooklyn.

TRAFFIC "D," SUBDIVISION 1

2951 West 8th Street, Brooklyn.

TRAFFIC "E" PRECINCT

275 Church Street, Queens.

BRIDGE PRECINCT 72

179 Washington Street, Brooklyn.

BRIDGE PRECINCT 73

North side of 59th Street, west of First Avenue, Manhattan.

STANCHION SHOP

Under Queensborough Bridge, 59th Street and First Avenue.

STABLES FOR MOUNTED FORCE

Varick and Beach Streets, Manhattan; 138-140 Tenth Avenue, Manhattan; 322 East 107th Street, Manhattan; 15 Adelphi Street, Brooklyn,

## TOTAL FORCE 1925 AND 1926

|                                  |           | Deputy<br>Chief Insp. | Inspectors | Deputy<br>Inspectors | Captains | Lieutenants | Sergeants | Patrolmen | Total 1926 | Total 1925 |

| Ocean Parkway -   | -       | -    | -      | - | - | - | - | - | - | - | - | - | 18                  |

## Manually Controlled Systems Made Automatic

A one man control system was installed in the traffic light towers on Fifth Avenue, Manhattan, releasing twelve patrolmen from duty in towers. Ten men were released from towers on the Grand Concourse when the automatic system was placed in operation. Automatic systems are also being installed in the towers on Bedford Avenue and Bushwick Avenue, Brooklyn, which will release forty other men, and contracts have also been awarded for an automatic system on Lafayette Street, Fourth Avenue and Park Avenue, Manhattan. A total of 100 men, at an annual salary of more than \$200,000, will have been released for other duty when all of the automatic controls, now under way or already completed, are installed.

## TRAFFIC EQUIPMENT

The following new traffic equipment was placed in the streets during the year by the Stanchion Shop of the Traffic Division:

BOROUGHS

| NATURE OF EQUIPMENT        |      |   |     | Manhattan | Bronx | Brooklyn | Queens | Richmond | Potal |

### WARNING LETTERS

In addition to the summonses, 12,851 warning letters were sent out by the Deputy Chief Inspector commanding the 16th Division to drivers guilty of minor infractions of the regulations. Experience during the year proved that this policy was productive of very good results. The majority of the persons to whom the warning letters were addressed responded with expressions of their willingness to coöperate with the Police Department. In many cases the attention of owners of large fleets of trucks was called to violations by their drivers. This led the employers in many cases to call meetings of their drivers for instruction in the traffic regulations, and warnings that they must at all times comply with them.

The warning letters sent out during the year, classified according to violations, were as follows:

| NATURE OF VIOLATION   |        |         |      |  |  |  | <br>3 BT . 4 | mber Reported<br>tices Sent Out |

#### CONEY ISLAND TRAFFIC

Conditions at Coney Island, where nightly, and on Sundays and holidays, crowds totaling as many as a million persons gathered and dispersed within a period of a few hours, led to the creation in the summer of 1926 to a special traffic precinct, designated as Traffic Precinct "D," sub-division 1. The handling of traffic by this action was placed directly under the Traffic Division.

The boundary covered by this sub-division was as follows:

"Gravesend Bay, from Atlantic Ocean to Coney Island Creek, to Sheepshead Bay, to Atlantic Ocean, to Gravesend Bay, to place of beginning."

The force during the summer months consisted of the following:

- 1 Lieutenant in command
- 2 Lieutenants to supervise patrol.
- 4 Sergeants.
- 11 Mounted patrolmen.
- 70 Foot patrolmen.

Twenty-five traffic posts were established and covered daily during the summer months.

Special parking rules were put into effect, a large number of one-way streets were established, and other special regulations adopted.

#### HIGHWAY ACCIDENTS

The following is a summary of the number of persons killed and injured in New York City as a result of highway accidents from January 1st to December 31st, 1926:

| ,              |   |                   | Killed               |       |                   | Injured              |        |
|----------------|---|-------------------|----------------------|-------|-------------------|----------------------|--------|
|                |   | Under<br>16 Years | 16 Years<br>and Over | Total | Under<br>16 Years | 16 Years<br>and Over | Total  |

## **OUARTERMASTER'S DIVISION**

The chief function of this Division is to purchase all of the supplies, equipment and materials necessary for the operation of the Police Department, its motor vehicle and floating equipment and its mounted service. It is charged with the care of all of its property, and keeps accurate and complete records relating thereto. It is under the immediate control of an Acting Captain of Police

#### PERSONNEL.

The force consists of the following:

|  | Uniformed<br>Force | Civilian<br>Employees |
|--|--------------------|-----------------------|
| Office-Acting Captain, in Charge           | 1                  | _                     |
| Division of Supplies-Office and Storehouse | 24                 | 7                     |

### DIVISION OF SUPPLIES

Written requisitions are required quarterly from each command, covering all necessary supplies required during such period. Special emergency requisitions may be issued when necessary. All are carefully examined as to quantities requested, and when approved, are forwarded to the Storehouse and there filled and delivered.

During the year ending December 31, 1926, 3,776 requisitions were drawn, as compared with 4,140 during the same period in 1925, and 4,382 department orders were issued to fill the requirements of these requisitons as compared with 4,746 orders issued in 1925.

This department submits requisitons to the Board of City Record for its requirements for blank books and stationery, and for all other supplies, equipment and materials to the Department of Purchase, where proposals are sent out, City standard specifications being used, or where there are no City specifications, sample of goods, standardized where possible, by this department, are submitted to the Department of Purchase, where they can be examined by prospective bidders.

All goods purchased for general distribution are received at the storehouse, located at 24 MacDougal Street, except bulky and heavy materials, which are delivered direct to the Commands where required. Accurate and complete records of all goods received and disbursed are kept at the Storehouse.

"FAITHFUL UNTO DEATH"

Records of all Department property, issued to or employed in the various commands, are maintained therein, and a carbon receipt copy is on file in the Quartermaster's Division. When such articles are no longer serviceable, a request for a survey thereon is made to the Quartermaster, which is forwarded to the Commanding Officer of the Division for his recommendation, and final inspection is made by the Quartermaster, if found to be of no further use, or worn out, property is condemned by the Quartermaster and sent to the Property Clerk for sale at auction, if the property has any saleable value; if not, it is condemned and destroyed and dropped from the Department records.

## DIVISION OF TRANSPORTATION

The Division of Transportation has supervision over department horses and dogs, automobiles, patrol wagons, motorcycles and bicycles, their maintenance and repair, and the Precinct (Collar) Numeral Shop, Harness Repair Shop and Automobile Repair Shops.

The permanent force of this division consists of the following:

- 1 Lieutenant in command of Division
- 1 Veterinarian
- 1 Clerical Assistant
- 1 Acting Sergeant, Auto Shop
- 2 Patrolmen, Watchmen, Auto Shop (Disabled)
- 2 Patrolmen, Numeral Shop (Disabled)
- 3 Patrolmen, Gasoline Distributors (Disabled)
- 4 Patrolmen, Clerical Duty
- 15 Patrolmen, Assigned to Auto, Motorcycle and Bicycle Repair Shops
- 1 Harness Maker
- 4 Horse Shoers
- 5 Hostlers
- 2 Caretakers
- 5 Civilian Auto Machinists

The equipment over which this division of the department has supervision is enumerated below:

| AUTOMOBILES:  | 1925   | 1926        |

Contracts have been executed and delivery is expected prior to January 15, 1927, on the following equipment:

| Chevrolet Touring Car           | 1   |
|---------------------------------|-----|
| Chevrolet Runabouts             | 100 |
| Trucks, One and One-Quarter Ton | 1   |
| Trucks, Two Ton                 | 4   |

A list of the equipment condemned and dropped from department records during 1926 is listed below. All equipment is condemned after careful survey and only when it is ascertained that the expenditure involved to repair same would not be warranted.

- 1 Cole Touring Car, received from the Dept. of Plant and Structures
- 1 Packard Automobile was transferred to the Dept. of Plant and Structures
- 1 Stutz Touring Car
- 4 Cadillac Touring Cars
- 3 Ford Trucks
- 65 Ford Touring Cars
- 194 Ford Runabouts
- 4 Ford Patrol Wagons
- 1 Dodge Ambulance converted into a Patrol Wagon and assigned to such service
- 304 Motorcycles
  - 30 Bicycles
- 32 Horses

Of the 32 horses condemned, 29 were turned over to the American Society for the Prevention of Cruelty to Animals, 1 was transferred to the Department of Public Welfare, 1 horse died and 1 horse was killed by accident.

A reorganization in the work of the Repair Shops was effected by centralizing the Automobile Repair Shop, formerly situated at Front Street, Brooklyn, the Motorcycle and Bicycle Repair Shops, formerly located at the Lawrence Avenue Police Garage in Brooklyn, and the Automobile Paint Shop, formerly occupying the garage of the 21st Precinct in the Bronx. These various shops are now operated, under the supervision of this Division, in the structure of the Municipal Repair Shop of the City of New York, at Avenue C and East 16th Street, Manhattan, an Acting Sergeant being in immediate charge thereat. This change has resulted in great improvement in the manner of repairing department equipment. When mechanical repairs are completed, machines can then receive necessary upholstery and painting, as required, without unnecessary delay, confusion and movement from one Borough to the other. The space formerly occupied by these various shops has provided urgently required garage accommodation for department automobiles.

The discontinuance of the School of Horsemanship, formerly conducted by a U. S. Army Cavalry Officer, with a Police Lieutenant and Police Sergeant assigned to the Police Academy, has made available for patrol purposes approximately 27 horses and 37 men. The School was a branch of the Police Academy, to which were assigned in regular periods, 25 members of the present mounted force for instructions, and 10 applicants from foot patrol for training for mounted assignment. The duty of trying out and instructing applicants for mounted duty is now performed by the Commanding Officer of the Division of Transportation, at either the 51st Machine Gun Squadron or the Police Department Training Stable, where mounts of Patrolmen on vacation or other leave, or horses awaiting condemnation, are used, and the qualifying of the applicants is performed with as little loss of time as possible of the men from patrol duty and no loss of time of horses from patrol service.

The department maintains a Harness Shop, under the supervision of this Division, for the repair of all harness and other leather equipment of our service.

The Precinct Numeral Shop continues for the manufacture of insignia worn on collars of uniforms of members of the Force, indicating command to which attached. These insignia numerals are furnished without cost to members of the Force and are made by two disabled patrolmen.

A Lubricating Station is maintained in each of the five Boroughs, where department cars report regularly for greasing and oiling, which tends to add to the longevity of such equipment.

# THE DIVISION OF STEAM BOILER INSPECTION AND ENGINEER'S BUREAU

The Division of Steam Boiler Inspection and Engineers' Bureau is empowered, under Sections 342 and 343 of the Greater New York Charter, to inspect all steam boilers within the City of New York carrying over ten (10) pounds of steam pressure to the square inch, except those used for railway locomotives or for heating purposes in private dwellings, and to subject them to a hydrostatic test once a year; also, to qualify engineers to operate them.

The Code of Ordinances of the City of New York (Chap. 10, Art. 18, Secs. 216-219) empowers this Bureau to examine applicants for a certificate of qualification to operate ice machines. This Bureau is also empowered, under rule 15 of the Board of Standards and Appeals, to examine applicants for a certificate of qualifications to operate fuel oil burners. Also under Circular No. 11, issued by the Police Commissioner, July 14, 1926, in conjunction with Chapter 18, Article 1, Par. 2 of the Code of Ordinances of the City of New York, approved March 18, 1921, this Bureau is also empowered to examine applicants for a certificate of fitness as an Engineer or Operator to take charge of or operate any machine for hoisting purposes or cable-ways used for construction work (not operated by steam).

Two members of the Department, who are practical engineers, are assigned to examine applicants for the above mentioned certificates and to hear and determine charges of incompetency or neglect of duty preferred against the holders of such certificates, and a report, with recommendations, is made to the Police Commissioner in each case.

Several changes in the personnel of the squad and the issuance of peremptory instructions requiring all members of the Force to exercise strict vigilance in the suppression of violations relative to steam boilers and dangerous conditions connected therewith, has resulted in maintaining a very high stage of efficiency in the work of the squad, as is evidenced by the fact that there has been but one serious steam boiler explosion during the past two years, cause unknown at present, the matter being in the hands of the District Attorney.

For many years men have been examined as to their qualifications to act as engineers and firemen and licensed by this Department without being charged a license fee. These duties involve considerable expense to the Department. It is, therefore, recommended that applicants receiving the first issue of First and Second Grade Engineer certificates should pay a fee of five dollars (\$5.00)

and, for each renewal, a fee of one dollar (\$1.00). Applicants receiving the first issue of Third Grade Engineer certificates should pay a fee of five dollars (\$5.00) and, for each renewal, a fee of one dollar (\$1.00). Applicants receiving the first issue of Fireman certificates should pay a fee of two dollars (\$2.00) and, for each renewal, a fee of fifty cents (\$.50). Applicants receiving certificates of qualification to operate ice machines should pay the sum of five dollars (\$5.00) for the first issue and, for each renewal, a fee of one dollar (\$1.00). Applicants receiving certificates of qualification to operate machines for hoisting purposes or cable-ways used for construction work (not operated by steam), should pay the sum of five dollars (\$5.00) for the first issue and, for each renewal, a fee of one dollar (\$1.00). Applicants receiving certificates of qualification to operate fuel oil burners should pay the sum of two dollars (\$2.00) for the first issue and, for each renewal, a fee of fifty cents (\$5.00).

#### SCHEDULE OF FEES RECOMMENDED

|                                    | FIRST ISSUE | RENEWAL       |
|------------------------------------|-------------|---------------|
| First class engineer               | \$5.00      | \$1.00        |
| Second class engineer              | 5.00        | 1.00          |
| Third class engineer               | 5.00        | 1.00          |
| Firemen                            | 2.00        | .50           |
| Ice machine operators              | 5.00        | 1.00          |
| Any motive power (except steam)    | 5.00        | 1.00          |
| Fuel oil burner operators          | 2.00        | .50           |
| Annual inspection of steam boilers | 5.00        | 1011011001000 |

At the present time the totally inadequate fee of two dollars (\$2.00) is charged for a steam boiler test, hydrostatic or hammer, while in most of the larger cities, Chicago, Detroit, Buffalo, Milwaukee, and the States of Rhode Island and New Jersey, the fee is five dollars (\$5.00). It is recommended that the fee be increased to five dollars (\$5.00) for each hydrostatic test and ten dollars (\$10.00) for a hammer test. The hammer test is applied in the case of old boilers only, where a hydrostatic test would not reveal the defects. The latter test is seldom necessary. However, in these cases, the services of two boiler inspectors is required for at least half a day and a charge of ten dollars (\$10.00) would be reasonable and just.

MEMBERS OF THE FORCE WHO RECEIVED MEDALS FOR DEEDS OF BRAVERY DURING THE YEAR 1926

Railway locomotives used on construction work and not operated under a franchise should be brought under the jurisdiction of the Boiler Squad, as they are equipped with high pressure boilers, propelled on temporary tracks, and generally operated by incompetent persons having no license to act as engineers. They are, therefore, dangerous to life and property.

The following is a report of the operations of the Boiler Squad during the year 1926:

| Number of steam boilers inspected                             | 17,431 |
|---|--------|
| Number of City Department boilers inspected, no fee           | 2,261  |
| Number of steam boilers inspected, fee \$2.00 each            | 15,170 |
| Fees collected for inspections at \$2.00 each:                |        |
| Year 1925 boiler inspections\$4,254                           |        |
| Year 1926 boiler inspections                                  |        |
| Total\$31,005   |        |
| Engineers' certificates issued, 1st class                     | 14     |
| Engineers' certificates issued, 2d class                      | 29     |
| Engineers' certificates issued, 3d class                      | 369    |
| Engineers' certificates issued, Portable (steam)              | 228    |
| Engineers' certificates issued, Portable A. M. P. (ex. steam) | 17     |
| Total engineers' certificates issued, all classes             | 657    |
| Total engineers' certificates renewed, all classes            | 9,103  |
| Total engineers' certificates transferred, all classes        | 1,454  |
| Firemen's certificates issued                                 | 61     |
| Total firemen's certificates renewed                          | 508    |
| Total firemen's certificates transferred                      | 21     |
| Ice machine operators' certificates issued                    | 780    |
| Ice machine operators' certificates renewed                   | 2,963  |
| Ice machine operators' certificates transferred               | 428    |
| Fuel oil burner operators' certificates issued                | 128    |
| Fuel oil burner operators' certificates renewed               | 240    |
| Fuel oil burner operators' certificates transferred           | 19     |

Note—In some of the total columns it will be noticed that the number of dispositions is in excess of the number of complaints or arrests for a given year. This apparent discrepancy is due to the fact that a number of cases of previous years were disposed of in the year in question, and consequently, included in the total for that year. For instance, a number of burglaries might have been committed in 1922, 1923, 1924, and 1925, which were not finally disposed of in the courts until 1926. The disposition of these cases, consequently, could not be included in the annual report for 1922, 1923, 1924, and 1925, but would appear in the total of the dispositions for the year 1926.

## DISPOSITIONS REPORTED DURING 1926, INCLUDING THE DISPOSITIONS ON CASES PENDING FROM PRIOR YEARS

The same applies to all offenses regardless of the nature of them. One of the greatest obstacles to make an annual report balance exactly is the frequency with which crimes have to be re-classified. What appears to be a simple assault finally has to be entered on the records as a homicide, due to the unexpected death of the victim. The same applies to all offenses, which often change their character and seriousness with the accumulation of pertinent evidence.

### SCHEDULE OF GANGS

The following is a list of the various gangsters apprehended and sentences they received, the gang name under which they operated and the crimes they committed:

WHITTEMORE (CANDY KID) GANG
